INTEGRITY, SAFETY & CONFIDENTIALITY

#OPERA KINDNESS

KINDNESS AND DIGNITY PLEDGE

Opera Zuid wants to be an open, safe, creative and pleasant working environment for all. Our top priority is the well-being and feeling of safety for all our collaborators during the rehearsal- and creation process and performances of our productions. We pursue an absolute safety-policy for all, and a zero-tolerance policy against all forms of improper, unsafe, unacceptable or undesired behaviour, in any form whatsoever.

We therefore pledge, together with everyone who works with us:

- To treat each other with kindness, consideration, generosity, respect and the awareness that we all bring different perspectives and lived experiences into the process;
- To make the rehearsal and production process a safe space for every one of us involved in the project, a space free of fear, bullying or harassment of any kind, a space of creativity and honesty;
- To consider each other's well-being, and to take responsibility for our own;
- To try to resolve any concern respectfully and directly with the person involved if we feel able to, and if not, to share our concern or report the incident to the pre-designated staff members: our production manager and our general manager, or to feel free and unburdened to contact the independent Fiduciary agency.

We want to assure the Opera Zuid premises and all the contexts of our touring venues are a safe space for all our collaborators at any given time. Every issue concerning inappropriate behaviour will be carefully addressed by Opera Zuid's management with respect for all involved. You can always share concerns with our staff.

You can at all times contact and confide in an external Confidant/Fiduciary Instance. The confidant is independent of Opera Zuid and is bound by confidentiality. No contact with the agency will be shared with Opera Zuid's Management. The agency has a specialized support system in place and will independently report to the authorities if necessary.
